AGENDA 21

CONSTITUTION FREE ZONES

“As long as our government is administered for the good of the people, and is regulated by their will; as long as it secures to us the rights of persons and of property, liberty of conscience and of the press, it will be worth defending.”

AGENDA 21

<http://www.un.org/esa/dsd/agenda21/>

The UN has an Agenda to recreate the entire world in it's own image... seriously.

What is Agenda 21?

On June 14th, 1992 the United Nations held a Summit in Rio De Janeiro. The outcome of this conference was a blueprint to completely and totally reorganize all of human society on planet earth.

This binding agreement between all members of the U.N. is based around the Environment, and the idea that humanity must be controlled at every level in order to achieve "SUSTAINABLE DEVELOPMENT".

Agenda 21 supercedes national and individual sovereignty. According to Agenda 21, the needs of the planet (or the collective) out weigh the needs of the individual.

The Agenda 21 blueprint includes;

- population reduction
- population control via birth rate
- human settlement zones
- natural resources control
- land seizures
- end to national sovereignty
- the abolition of private property
- restructure of the family unit
- increased limitation and restriction of travel
- control of agriculture
- control of livestock and wild animals

The Agenda is imposed willingly by governments at the federal and local level, by adhering to guidelines and imposing new legislation based on the Agenda 21 criteria.

You're probably thinking new laws supporting such an extreme agenda will never be tolerated by the public or get through congress...

The sad fact is **THEY ALREADY HAVE.**

Agenda 21 implementation can BYPASS the U.S. Constitution through executive order and by Treaty.

CODEX ALIMENTARIUS

<http://www.codexalimentarius.net/>

Vitamins and Health Supplements are now fully regulated by the FDA.

What is Codex Alimentarius?

Actually, the correct question is, WHO is the Codex Alimentarius...

Codex Alimentarius is a **TRADE COMMISSION** created and run by the World Health Organization and the Food and Agricultural Organization.

The commission was created to regulate and control EVERY aspect of how food and nutritional supplements are produced and sold on a global scale.

Coinciding with Agenda 21, Codex Alimentarius has a series of guidelines and practices to which governments conform.

After a bit of research it is easy to see that Codex Alimentarius does NOT have the public's best interest in mind, and that the commission is a bought and paid for pawn of Big Agro (Monsanto) and Big Pharma (Pfizer).

Some items Codex Alimentarius seeks to ensure;

- All food to be irradiated
- All livestock to be treated with antibiotics and growth hormones
- Vitamins to be sold over the counter only in small amounts
- Use of Monsanto's recombinant bovine growth hormone in all cows
- Unlabeled Genetically Modified Foods
- Herbs and other Natural Health Remedies classified as drugs

CONSTITUTION FREE ZONES

www.aclu.org/constitution-free-zone-map

66% of Americans live in an area where the U.S. Constitution no longer applies!

Did you know?

While the 4th Amendment (see below) protects Americans from illegal searches and seizures, the border of the country has always been somewhat of an exception.

The problem is the Government now considers **"THE BORDER"** a **100 MILE WIDE AREA** surrounding the entire country. 100 Miles inland along the perimeter of the country happens to be home to **TWO THIRDS** (or 66%) of the Country's population.

This absurd interpretation of our border is allowing Police and Homeland Security to abuse their powers.

This issue is amplified through the inclusion and intrusion of "Big Brother" through new technologies such as Mobile X-Ray devices, Automated Targeting Systems, Identity and Tracking systems utilizing RFID, the WHTI and SBINet and Unmanned Drone aircrafts.

Fourth Amendment:

Protection from unreasonable search and seizure.

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.
