

WHAT CAN I DO?

- Look on the Internet and educate yourself
- Contact your local government
- Phone Radio DJ's
- Send letters to local papers
- Copy and distribute this leaflet or have an information stall
- Spread the word: inform family and friends
- E-mail or text your networkers: it might just be the most important post they ever receive
- Eat organic foods, drink plenty of filtered water and get plenty of exercise away from roads
- Boost your immunity with herbs and detox your body with colonic hydrotherapy
- Keep bees: virtually anybody can accommodate Mason bees; they do not sting and are 75% more effective pollinators than honey bees
- Use positive visualisations of blue skies, clean, healthy air; really feel the invigorating warmth of the joyful sunlight. Affirm life! This really works. Let it banish fear: fear undermines our immunity

STOP HAARP !!!

STOP CHEMTRAILS !!!

TOTAL ENVIRONMENTAL DEVASTATION

- *Chemtrails = a criminal act under US Law*
- *Chemtrails = illegal under the Geneva Convention*
- *HAARP= secretly uses deadly EMF's to modify weather patterns globally without public permission*
- *HAARP= a potential weapon of mass destruction*

....LOOK UP AT THE POISONED SKIES...

...PLANES ARE SPRAYING CHEMTRAILS...

..HAARP IS WRECKING OUR IONOSPHERE...

WHAT ARE CHEMTRAILS?

Chemtrails are produced by military and commercial jets flying criss-crossing the skies with broad, white jet fumes deliberately laced with chemicals including:

ethylene dibromide (a pesticide banned by the EPA)

barium a radioactive substance

aluminium (associated with Alzheimer's Disease)

assorted red and white blood cells

biowarfare bacteria + other deadly pathogens including *Anthraxis* (anthrax), *Mycoplasma Fermetens* (found in veterans with Gulf War syndrome and jet fuel.

Chemtrails make us very sick; symptoms include but aren't limited to:

- persistent hacking coughs
- burning throats
- upper respiratory and intestinal distress
- pneumonia
- ME , chronic fatigue
- lethargy
- dizziness,
- disorientation
- heart attacks and high BP within 2 hours of spraying
- thickening of blood
- splitting headaches
- elevated arthritis symptoms
- tingly feelings all over
- severe flu-like symptoms
- allergic reactions
- unexplainable nosebleeds
- Morgellon's disease
- Sudden death

WHAT IS HAARP?

'The High Frequency Active Auroral Research Program' (HAARP)- a programme located 8 miles north of Gakona in Alaska, which- officially-started in 1990. It is a huge ionic research instrument, which uses scalar technology to transmit deadly levels of EMF's. Smaller connected installations exist worldwide.

HAARP slices into the ionosphere and artificially alters the conditions of the upper atmosphere using high intensity, controlled electrical fields in selected locations created with dangerous electromagnetic radiation. These EMF's are also pulsed through Earth's geomagnetic grid lines, thus altering its natural magnetic frequencies.

HAARP can be used to:

- control weather
- disable global communications systems,
- as the most destructive nuclear weapon yet known
- alter behaviour through EMF manipulation.

EMF's are destructive to health:

- Life-energy field breakdown
- Cellular energy decreases
- destabilise metabolism
- damage cells and brain circuitry
- cause degeneration of the nervous system
- cause hormone imbalance
- disrupt brainwaves
- cause cell mutation and reproductive disorders
- create cancer
- are linked with most modern degenerative diseases

ARE HAARP AND CHEMTRAILS CONNECTED?

YES!

Chemtrails create an environmental plasma which allows EMF's to travel more easily. High concentrations of the sprayed substances are found in air, water, the earth and our bodies. Everything is made more sensitive to EMF's.

Chemtrails and HAARP are utterly destroying the environment. Just some of their harmful effects include:

- birds dropping dead from the skies with charred wings
- people and animals suffering from wasting, radiation burns and sickness after HAARP "experiments"
- collapse of coral reefs globally
- soils failing to support anything but GM crops because of high EMF conductivity and metal content from chemtrails
- Bees colonies are collapsing; as many as 70% of commercial hives are being affected by bees simply disappearing. Bee behaviour changes with EMF's and chemtrails will poison them and their food sources. Bees stay away from GM crops

"If the bee disappeared off the face of the globe, then man would have only four years of life left. No more bees, no more pollination, no more plants, no more animals, no more man."

Albert Einstein
